

Alisa Utesheva

PRODUCT DESIGNER · UX / UI

Brentwood, CA · alisaux.com · behance.net/alisautesheva1 · linkedin.com/in/alisaux · alisamuux@gmail.com · 510.480.0142

Product designer grounded in user research. The decisions below trace back to an interview, a survey number, or something a tester said. Comfortable across the full process: research, wireframes, interaction design, design systems, and high-fidelity prototyping in Figma.

KEY SKILLS

Design & Prototyping: Figma, FigJam, Framer, Webflow, Prototyping, Mobile App Design

Research & Process: User Interviews, Usability Testing, Preference Testing, A/B Testing, Competitive Analysis, Persona Development, User Flows, Information Architecture, Wireframing, Design Systems, Responsive Design, Accessibility / WCAG

Development: HTML, CSS, JavaScript, Git / GitHub

Visual & Motion: Photoshop, Illustrator, InDesign, Procreate, After Effects, Premiere Pro

AI: ChatGPT, Claude, Claude Code, Gemini, Midjourney, Adobe Firefly, Kling AI

Collaboration: Cross-Functional Collaboration, Stakeholder Communication, Storytelling, User Advocacy, Clear Communication, Giving & Receiving Feedback, Conflict Resolution

EXPERIENCE

Nuance · *Personalized Beauty & Shade-Matching App*

Product Designer · UX/UI | Spring 2026

- Surveyed 14 respondents and usability-tested with 7 more across two rounds, 21 participants in all, then rebuilt a shade-matching flow around what the research actually found.
- Designed a shade-matching quiz and a routine-compatibility checker to fix the trust problem the research uncovered. 85.7% had been disappointed by an online beauty recommendation before.
- Built and usability-tested high-fidelity Figma prototypes across three flows: Discover, Match, and Routine.

Flosser · *Habit-Building App with a Mascot System*

Product Designer · UX/UI | Spring 2025 – Spring 2026

- Designed a flossing habit app focused on a real health behavior, built around a two-mascot gamification system that reframes a missed day as something to recover from.
- Built and maintained a full design system and brand-voice guide from scratch, with real rules for what the system should and shouldn't include.
- Found that more than a third of surveyed respondents were building the flossing habit for the first time, not just being reminded of one, and rebuilt onboarding around that finding.

Reboot · *Visual Discovery App for Gamers*

Product Designer · UX/UI | Spring 2025 – Spring 2026

- Ran a focus group in which 3 of 3 participants couldn't find the Explore feature. Redesigned the primary navigation and added in-app walkthroughs based on that friction.
- Preference-tested two icon options for a drag interaction and picked the one testers understood immediately over the one that confused them.
- Built and tested high-fidelity Figma prototypes across three core user flows: Explore, Boards, and Guided Walkthroughs.

MindScoop · *CBS KPIX San Francisco Collaboration*

Product Designer | Fall 2025

- Product Designer on a three-person team in Academy of Art's Future Agency course, partnering with CBS KPIX San Francisco on how AI, AR, and immersive stage tech could reach younger news audiences.
- Presented at the CBS building to Scott Warren, Regional President and General Manager of CBS News Northern California; the concept was recognized as a Breakthrough Insight for its unconventional approach to broadcast formats.
- Owned the Pop Quiz app integration and the MindScoop TikTok prototype, alongside concept development and the interactive set experience.

ADDITIONAL EXPERIENCE

Eleven8 · *Brand Ambassador for Laminar*

September 2026

- Represented Laminar, a Salesforce ecosystem company, at Dreamforce, distributing marketing materials and engaging attendees to build brand awareness and name recognition.

Activation Pro · *Brand Ambassador for Facebook*

September 2026

- Managed on-site event registration for Facebook, handling attendee check-in and serving as a first point of contact.
- Operated under an NDA, handling event details and materials with discretion.

EDUCATION & ACTIVITIES

BFA in Interaction and UX/UI Design · Academy of Art University, San Francisco, 3.7 GPA (May 2026) · President's Honor List

Coursework: Web Design, User Experience, Visual Design, Motion Graphics, Typography, Design Technology, Design Thinking, Visual Storytelling & Editing.

Udemy Certifications: Figma, Figma Advanced, Photoshop, Illustrator
